NON-FRIVOLOUS NATIONAL SECURITY ISSUE. QUI TAM ACTION, CIVIL, EXPANDING FRAUD SUIT, DEPRIVATION OF RIGHTS, TORTURE AND ABUSE IN VIOLATION OF ALL CATEGORIES OF LAW; Constitution and COMMON LAW

CLAIM

Comes now, Pro se claimant, Sovereign, Sentient man of God, Edward Lewis, Brown, without benefit of counsel (effective), funds or tools, in the capacity and authority as a United States (or America) Constitution Ranger of the 1777 Continental Congress for the benefit of the citizens of the United States of America, Union Republic(s), and reaffirmed in 1980, filed in the Library of Congress, Reg. No. TXU 42-453 whose 243 year, non funded, non corrupted history and continuing mission to protect the de jure republic form of government.

Files this 'Clarion Call' Expanding Fraud Suit in defense of the people, government and himself from a very slow, deepest state and encroaching, coup d'état assimilation of the United States of America infrastructure of the union republic(s) since, at least the Civil War, by agent(s) known and unknown, foreign and domestic, for a known European cartel whose mission (in part) is to destroy the entire idea of the United States of America; the one nation under God.

Clerk

Therefore, as this is a factual national crisis issue and I am not allowed effective counsel by the court, as claimant I will have to ask you for and receive a bit of assistance for this extraordinary case. i.e. I will only need to know what you need next: discovery-grounds-chronology of crimes against claimant/United States - etc. I will not be able to reveal any information on the cartel until I have spoken to the president. Due to further national security issues.
